Contact Express Scripts for Assistance

- Call the **Rx Information** number on your ID card to speak with a representative from Express Scripts, 24 hours a day, 7 days a week to help with any of your prescription drug concerns, including:
 - Finding an in-network pharmacy
 - Determining the cost of your medication
 - Moving your medication to mail order
 - Checking the status of mail order claims
 - Any other prescription drug questions you may have

Pharmacy Preventive Care Benefits

- The use of prescribed medications can help members to maintain good health. As part of the healthcare reform, the U.S. government identified the following types of medications as important for preventing future illness:
 - Aspirin
 - Colonoscopy preparations
 - Fluoride
 - Folic Acid
 - Medications to prevent HIV
 - Medications to prevent cardiovascular disease
 - Medications to reduce the risk of primary breast cancer in women
 - Smoking cessation aids
- It is best practice to speak with your physician about the medications that are covered at 100% with no member cost sharing if prescribed by your healthcare provider and filled at a network pharmacy.

Price a Medication & Check Formulary Status

- The Price a Medication tool will allow you to find out if your medication requires a coverage review and help you identify preferred formulary alternatives.

The screenshot shows the 'Price a medication' interface. A red 'Coverage alert' box is displayed, stating: 'Coverage Review is required for Caduet 10 Mg-10 Mg Tablet.' It provides instructions for participating retail and home delivery pharmacies. Below this, a section for 'Step Therapy' is shown. A 'Continue pricing' button is at the bottom left of the alert box. To the right, the drug details for 'Caduet 10 Mg-10 Mg Tablet' are listed, including its brand name (Pfizer Us Pharm) and a 'View drug information | Recalculate' link. A green button labeled 'View formulary alternatives' is highlighted with an orange arrow. The main content area shows 'Other formulary alternatives' for Caduet 10 Mg-10 Mg Tablet, including Amlodipine-atorvast 2.5-10 Mg (Generic) with a 'Select' button. It also lists 'Other covered drug options' for the same tablet. On the right, a section titled 'Is this drug covered?' shows 'YES' for both 'Home delivery pharmacy' and 'Participating Retail Pharmacy', each with a 'View coverage notes' link. A large green arrow points from the 'View formulary alternatives' button back to the 'Other formulary alternatives' section.

Mail Order Program

- If you take long-term medications, save time and money by having them delivered conveniently to your home through mail order with Express Scripts
- **Easy to start:**
 - Your doctor can e-prescribe or fax your prescription directly to Express Scripts.
 - You can mail your prescription with a completed mail-order form and payment to Express Scripts.
- **Easy to refill:**
 - **Online:** Visit the Express Scripts website through My Heath Plan.
 - **By Phone:** Call the Rx Information number on your Medical Mutual ID card.
 - **By Mail:** Complete the refill slip that came with your original prescription.
 - **By Smartphone:** Place refill orders via the free Express Scripts app available in your app store.

Extended Payment Program

- The Extended Payment Program through Express Scripts can make it easier to pay for 90-day supplies of long-term prescription drugs through mail order.
- The program includes the following:
 - A payment schedule provided with your first prescription order.
 - Shipment of your full 90-day supply after the first payment.
 - The option of paying your cost share in three equal monthly installments.
 - Automatic charges to the credit or debit card of your choice.
 - No additional “convenience” fee.
- To learn more about the Extended Payment Program, call the Rx Information number on your ID card.

Note: Once selected, Express Scripts will apply the Extended Payment Program to all mail order prescriptions for all covered members in your household.

SaveOnSP

- The SaveOnSP program saves you money by maximizing prescription drug copay assistance from pharmaceutical manufacturers for specialty drugs.
 - Through this program, you will pay \$0 instead of your plan's specialty drug cost share.
 - Your prescription will be filled through one of our specialty pharmacies and you will still receive the same 30-day supply per fill.
- For more information or to enroll, call SaveOnSP at 1-800-683-1074 or call the Rx Information number listed on your ID card.
- To view a list of medications covered under this program, go to:

MMO NPF Public: MedMutual.com/SaveOnSPNPPublic

Note: Enrollment in the program is voluntary. If you choose not to enroll in SaveOnSP, you will be responsible for paying the full member cost-share of your medication. The amount that you pay will not accumulate toward your annual deductible or out of pocket maximum.

Coverage Management Programs

- Medical Mutual uses coverage management programs to make sure you get the right medication for your condition at the best value. This means that certain medications may not be covered until they have been approved.
- There are three types of coverage management:
 - **Prior authorization (PA)** is a check to make sure your drug is prescribed appropriately and is proven effective and safe for your condition.
 - **Step therapy (ST)** rules promote the use of lower-cost drugs in place of more costly medications.
 - **Quantity limit (QL)** rules define the amount of the medication your plan will cover at one time (for example, 30 tablets within a 90 day period).
- **If you are taking a medication that requires a coverage review**, ask your prescriber to visit the Express Scripts online portal at esrx.com/PA to arrange a review before your next refill.
- Once a decision has been made, usually within 5 business days, a letter will be sent to you and your provider to let you know if the request has been approved or denied.
