Your Benefits

MedFlex provides complete benefits, excellent care and cost control measures to help manage premiums and out-of-pocket costs. This network is a non-gatekeeper HMO, which means you don't need to coordinate care through your primary care physician (PCP). You can access specialists directly and save money. However, we do encourage you to see your PCP regularly because regular health screenings can lead to better health outcomes and help you save money.

Pharmacy Benefits

Your pharmacy benefits offer savings through generic and preferred brand name prescription drug programs and a comprehensive pharmacy network that includes Walgreens and Discount Drug Mart.

Out-of-Network Restrictions

MedFlex plans only cover out-of-network benefits for medical emergencies. You will be responsible for the costs of any non-emergency care received out of network. Emergencies are always covered at any hospital regardless of network status.
